PROFESSIONAL SUMMARY

Software Engineer with over four years of experience building scalable web and mobile applications. Combines strong full-stack development expertise with UI/UX design skills to create intuitive, user-centered digital experiences. Proficient in Figma and Adobe XD for designing clean, modern interfaces, with a focus on usability, performance, and scalable architecture.

TECHNICAL SKILLS

Frontend: React, Next.js, React Native

Backend: Node.js, Express.js, PHP

Database: MongoDB, SQL

UI/UX Design: Figma, Adobe XD, Canva.

Design Skills: Wireframing, Prototyping, User Flows, Responsive Design, User-Centered Design

Tools & Technologies: Git, REST APIs, authentication, and API Integration

Core Competencies: Full-Stack Development, Mobile App Development, UI/UX Design, Scalable System Design

PROFESSIONAL EXPERIENCE

Software Developer – Upwork

Sept 2025 – Present | Remote

- Developed and deployed web and mobile applications for clients across various industries
 - Built scalable full-stack solutions using React, Node.js, and modern databases
 - Designed user interfaces and prototypes using Figma based on client requirements
 - Integrated RESTful APIs and optimized application performance
-

Software Developer – EduMESS

June 2021 – July 2025 | Nigeria

- Led development of a school management system to streamline academic and administrative workflows
 - Designed and maintained backend services and APIs
 - Designed user flows and optimized interface interactions
 - Improved system performance and contributed to ongoing feature enhancements
-

Software Developer – Chov

Jan 2024 – May 2025 | Nigeria

- Contributed to building a collaboration platform for developers
 - Implemented core features to improve usability and system performance
 - Enhanced UI components and overall product experience
 - Collaborated on UI/UX improvements, enhancing user experience across platforms.
 - Worked across both frontend and backend systems
-

PROJECTS

EduMESS – School Management System

- Developed a full-stack platform for managing students, staff, and academic operations
 - Automated administrative processes and centralized data management
 - Improved usability through better interface structuring and workflows
-

Coursearly – Learning Management System (LMS)

- Built a platform for online learning and course delivery
 - Designed wireframes and user flows to ensure an intuitive learning experience
 - Focused on structured navigation and user-friendly interface design
-

Bitez – Food E-commerce Platform

- Developed a system connecting users with food vendors and restaurants
 - Implemented ordering workflows and interactive user features
 - Improved user journey for seamless ordering experience
-

Flex Links & Services – Job Matching Platform

- Built a platform connecting employers with workers
 - Designed onboarding flow and job matching interface
 - Focused on user engagement and simplicity in navigation
-

4nSpot – Location-Based Discovery App

- Created an app for discovering nearby services and places
 - Integrated location-based features to enhance user experience
 - Designed user-friendly interaction for service discovery
-

EDUCATION

African Digital Academy

Software Development

Oct 2021 – May 2022

KEY STRENGTHS

- Strong problem-solving and analytical thinking
- Experience building production-ready applications

- Ability to work independently and in distributed teams
- Focus on clean, maintainable, and scalable code
- Strong understanding of user-centered design principles
